FOR IMMEDIATE RELEASE

## **Dando Joins Nation Builder!**

*Dando is committed to becoming the strength of our nation.*

We are proud to announce that Dando has joined Nation Builder, in an effort to strengthen South Africa, its people, and the underlying corporate and social structures that support our beautiful country.

Nation Builder believes that 'nation building' is the responsibility of all South Africans. It is not something that should be left to non-for-profit organisations alone. We can partner in nation building by supporting credible, reliable and responsible organisations with our resources, enabling and equipping them to make a tangible difference in our nation through a variety of proven development and upliftment projects.

By joining forces with Nation Builder, Dando publicly commits themselves to the ideals and outcomes associated with becoming the strength of our nation. They chose to prioritise the triple bottom line of not only financial, but also environmental and social profitability, by being actively involved in the support and upliftment of their immediate community.

Says Dando foundation: *"We couldn't be more excited about what we can achieve through Nation Builder. The opportunity to commit to making a difference in South Africa is what our country has been needing for a long time."*
